My statement that "Chauthayi" was granted from 1866-67 is based upon ~~Copies~~ Order No: 130 Dated 17th: October 1865 (Please see translation putup of the original order marked (4 i) in the file) issued by the acting Dy Supt Mr: Krishnaiengar & the Srirangam Amildar).

I have corrected in pencil as per Statement — Hence no action 21/6/93

(Translation of Mr: Krishna Iyengars Order No: 130 dated 17th October 1865).

Read:

Arzi No: 233 dated 8th instant from the Amildar of Srinivaspur Taluk Stating that he has sent the ryots, Shanboge and other applicants with the detailed list with reference to the Durkhast presented by Adyul Nanjappa Stating that he would get the breached bank of "Ruddy kunté", situated in the village of Kumbarepalli, Srinivaspur Taluk, repaired at his own ~~cost~~ expense, and requesting the grant for cultivation of the present "atchkat" land under the tank and also the lands which may come under "Atchkat" in future, on Kandayam at the rate of 4 annas (per Koodos).

Out of the total extent ~~of cultivable land~~ of 3 3/4 Kandees and 3 3/4 Kolagas, deduct 3 3/4 Kolagas ~~omitted from the accounts~~ of land, and there remains 3 3/4 Kandees of land fit for cultivation. Since the year 1861 when the tan

tank ~~was~~ breached owing to heavy shower of rain, the land under the tank has lain waste and the average income of revenue during the six years before 1861 when the tank was in good order, was Rs. 6 as 4 ps per Kolaga.

It would appear that the tank is situated between 2 hills in a jungle and has a fruitful source of water supply; and that the tank would be of no use unless it were repaired at a heavy cost of 800 Rs.

On being questioned about the repair of the tank, Bidar Munilga and others who were present, stated that they did not want the Kuntè as they could not afford to get it repaired; but requested that ~~an enhancement~~ one Kolaga of land which they had been enjoying for a long time, as "Kalvè Dasavandum" might be continued to them and that they would continue to keep the channel in good order.

The average assessment of one "Kolaga of wet land which obtains in the Taluk,

it

would appear
is 2 fanams (9 Annas 4 pies). According to
that rate the beriz for the total extent of
$3\frac{3}{4}$ kandees of land under the kuté would
be 43 Rs & 12 annas. The estimated cost of
repairs of the tank (viz Rs 800) cannot be
met from the total collections of 10 years (43) p(Rs).
Out of this 9 as 4 pies (2 fanams) if 2 as 4 ps,
being the "Chowtaya" amount as per Chief
Comm's order, be deducted the balance
is 8 annas. Under these circumstances
these $3\frac{3}{4}$ kandees and such of the lands as
may be available for cultivation in future,
1866-67 have been granted from the year Akshaya
to the Durkhastdar Nanjappa for culti-
-vation at an assessment of 7 as per kolaga,
and 10 months' time for the repair of the
tank has also been allowed.

The Durkhastdar Nanjappa has given
a Statement accepting to pay the assessment
at the rate of 7 annas from the year Akshayya
he may be put in possession of the lands
and kandayam may be imposed there

and

and collected from the ensuing year:
a Statement showing the number and extent
of the lands thus given over to Nanjappa
should be prepared and submitted.

Regarding the grant of "Kalvé Dasavandum"
the Shanbhogé stated, on enquiry, that there
is an entry of it in the "Jari" account; that
they (the above said Munileja & others) were
enjoying it from time immemorial; & that
it was not in their enjoyment owing to the
breach of the kuté and that there
was nothing on record to shew that it
had been attached. If the Shanbhogué's
Statement be found on examination to be
true, the land may be continued to them
on "the Dasavanda tenure".
